GOOD NEWS FROM NICHOLSON.

A rich vein of bituminous lignite coal, suited to the use of ocean steamers, is reported to have been discovered near the proposed route of the Niagara canal. A New York syndicate will develop it.

Hornes I. Hotchkiss, who is identified with Niagara canal interests and has received samples of the coal, says: "The influence of this discovery is one of great value in the promotion of the Niagara canal, because the tonnage of the world is largely composed of steamships, and they cannot only coal up at the central point, but they also take in water while doing so, which will free their bottom from salt water parasites, which work so much injury to vessels."

AN ELIGIBLE MEMBER ELECTED. The constitution of the Southern Society requires that a candidate for membership shall have been born south of the Mason and Dixon's line. At least, have lived in that part of the country for twenty years prior to 1851, and as a result nearly all the members of the Society who participated in the late war were the gray. The Society elected to membership the other day in the person of General Felix Agnus, of Baltimore, a worthy citizen in every way a desirable addition to the club, at the same time, a gentleman whose position as a member will be some what novel. General Agnus was an officer in the Iron Army, and is, perhaps, the only existing general in the Society.

The wedding of Miss Marion Langdon to Mr. Royal Phillips Carroll, of Maryland which took place at the Schuyler mansion at Irvington, near the Hudson river, was a most attractive affair to interest everyone in this city, as the wedding has been so much admired. Only the immediate relatives and a few friends were present. Mr. Carroll is a member of the old Catholic family of Carrolls of Maryland, and is a graduate of Harvard of '89. He is a man of wealth and leisure, and has distinguished himself considerably in Arctic exploration and hunting. He returned only last April from the Dept. Continent. The majority of the ill of the human body arise from a diseased Liver. Simmonds Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any other remedy on earth.

AFTER THE GRIP COMES PNEUMONIA.

And no disease is more deadly than Pneumonia following an attack of Grip. The horrid Grip, which spares few, leaves the liver purged, the lungs weak and sensitive, the nerves shattered, every vital force laboring. No wonder that Pneumonia takes quick advantage of a system thus reduced and runs its rapid and fatal course! Yet no one need suffer or despair, for the longest tried and best known of all specifics is within easy reach.

DR. SCHENCK'S PULMONIC SYRUP

is the price of remedial for inflamed or congested lungs. It quickly checks the tendency toward Pneumonia, and even masters the disease in violent form, by promoting active secretion, carrying away the accumulation of disease, clearing and loosing the air passages, and fortifying the tissues. Pneumonia, deadly as it usually is either an attack of Grip, cannot ravage the lungs of one who is prudent enough to keep in hand a timely and tried Pulmonic Syrup, and give it a timely and tried. For over half a century it has been a family standby in all forms of lung trouble, and is more highly appreciated to-day than ever.
